February 21st, 2021
1700 hours

Course Description:

FO729- Incident Safety Officer, this two-day course examines the safety officer's role at emergency responses. The course focuses on operations within the incident command system (ICS) as a safety officer and emphasizes response to all-hazards types of situations. The goal of this course is to provide students with the knowledge and skills needed to perform the duties of the Incident Safety Officer (ISO) during incident operations and training evolutions.

This course is an incident specific, scenario-oriented course designed to teach students what an ISO needs to know at an incident. The course uses instructor-led discussion, multimedia activities, and small group discussions to convey instructional points.

Course Pre-requisites: ICS 100, ICS 200, (Firefighter 1 & 2 preferred)

This course requires student participation in small group and instructor lead discussion. At the end of this course the student shall be able to, define the roles of the incident safety officer, formulate a risk management matrix for various incidents and planned events, evaluate incidents for unacceptable risks and recommend remediation opportunities, summarize the incident safety officers responsibilities during post-event operations.

Registration: Course #421-21159

Students must register by the above registration date (10 days prior to first day of class). Registration can be completed by following the below link to Virginia Department of Fire Programs, Cornerstone On-Demand website.
