CodeRED Weather Warning FAQ's

What is CodeRed Weather Warning?

CodeRed Weather Warning uses National Weather Service's polygon methodology to notify only citizens in the path of projected weather. (severe thunderstorm, tornado and flash flood) which increases relevance and reduces false alarms. CodeRed Weather Warning is an opt-in only service.

What warnings are messages delivered for?

Warnings for severe thunderstorms, flash floods and tornados are automatically sent to residents who have opted into the service.

How are messages delivered?

Weather Warnings are delivered to a home, business or cell phone number.

How do I unsubscribe?

To unsubscribe from the Weather Warning service residents can call from the telephone number receiving the messages at 800-566-9780 and select option 2. This will delete the telephone number from the Weather Warning system.
