

Informational Bulletin

Emergency Access Road @ Mintbrook

Date: January 16, 2018

Number: 18.002

Effective Date: January 16, 2018

Expiration Date: N/A

Approved By: Darren L. Stevens, Fire Rescue Chief

We have been working with Community Development, VDOT and the Mintbrook developers to get a secondary access installed on Route 28 to avoid the difficult turns on Route 17. This road is now available for emergency access use. There is a latched cable across the road that is currently unlocked (a Supra box is on order). There is sufficient space to stage off the roadway to open the cable.

If you notice unauthorized parking on this road please contact our office immediately.

Questions regarding this bulletin should be directed to Chief Stevens.
