

Informational Bulletin

Lifepak Maintenance

Date: April 17, 2019

Number: 19.014

Effective Date: April 17, 2019

Expiration Date: N/A

Approved By: Mark S. Ciarrocca, Acting Fire Rescue Chief

With regards to Lifepak maintenance, the station officer will be responsible for contacting our service technician. If you have any issues with the Lifepak itself or battery issues please contact LaDeana Anderson. Stations without an assigned officer (stations 4, 8, 13) should report problems to an on duty battalion chief for follow-up with the Ms. Anderson.

In the very near future EMS central supply will be stocking all of the cables in the event of damage or malfunctions. Once this is up and running, you will contact central supply for the replacement. In the time being please contact BC Arft for cable issues.

Below is LaDeana's contact information:
