

Informational Bulletin

PPE Tags

Date: June 23, 2022

Number: 22.022

Effective Date: June 23, 2022

Expiration Date: N/A

Approved By: Darren L. Stevens, Fire Rescue Chief

In accordance with OP 710 Protective Equipment and General Safety, it is the responsibility of all employees to check and maintain their Personal Protective Ensemble (PPE). To help track department issued PPE, logistics uses the serial number tag affixed to the garments.

It is imperative that all garment tags with make, model and/or serial number remain attached to the garment. At no time shall employees remove, mark, or deface any of the garment tags. If tags are found to be missing, the employees should make notification in PSTrax in the logistics PPE section.

Questions regarding this bulletin should be directed to Battalion Chief Fred McEvilly or Lieutenant Butch Flippo.
