

# Informational Bulletin

## Sterile Gloves

Date: September 7, 2022

Number: 22.035

Effective Date: September 7, 2022

Expiration Date: N/A

Approved By: Darren L. Stevens, Fire Rescue Chief

Dr Jenks has requested that when accessing implanted ports that we utilize sterile technique to include the use of sterile gloves. In order to meet this training need Captain Shields has put together a PowerPoint demonstrating the proper donning of sterile gloves along with a check off sheet that is to be completed in the station with your officer.

Next week the Target Solutions assignment will be sent out to all Intermediates and Paramedics within our department. Staff is to complete the PowerPoint and skills check off sheet. Once completed please scan the check off sheet and upload it to the Target Solutions assignment. Logistics will be delivering practice gloves to all stations that staff an Intermediate or Paramedic next week as well. In each bag there will be three sets of size 6, 7 and 8.5 (One set for each shift, except for Station 5 which will have two sets per shift).

Questions regarding this informational bulletin should be directed to Captain Matthew Shields.
