

Informational Bulletin

Pediatric King Airway

Date: January 31, 2024

Number: 24.011

Effective Date: January 31, 2024

Expiration Date: N/A

Approved By: Kalvyn W. Smith, Fire Rescue Chief

This informational bulletin is regarding the pediatric King airway devices. Currently we are unable to order the pediatric king airway sizes 0, 1, 2 and 2.5 due to FDA regulations. In the meantime, if you have any pediatric King airway devices that are nearing expiration or are expired, please continue to utilize the device if needed, but not use the sterile lube provided with the device. Please utilize in date sterile lube from your supply instead. The department is currently working on a solution for our pediatric rescue airway device.

If there are any questions regarding this Informational Bulletin, please Battalion Chief Rich Cluff.
