

Informational Bulletin

WTC Temporary Main Gate Relocation

Date: 06-15-2022

Number: 22.020

Effective Date: 06-15-2022

Expiration Date: N/A

Approved By: Darren L. Stevens, Fire Rescue Chief

Effective immediately, the WTC main gate at 7471 Bear Wallow Road is closed for repairs to our vehicle barrier. The repairs are expected to last until the end of July.

Our main gate has been relocated to gate 5, "Pond Gate", at 8074 Bear Wallow Road. There are signs as you approach the gate and the gate is clearly marked.

We will remain in service for the duration of the repair work, but you may notice a 2-3 minute overall response delay. We will update you as we get closer to construction completion.
