

Informational Bulletin

INOVA ePCR Updated Contact

Date: September 30, 2022

Number: 22.037

Effective Date: September 30, 2022

Expiration Date: N/A

Approved By: Darren L. Stevens, Fire Rescue Chief

When syncing transfer data from Inova Fairfax for ePCRs, there are two new contact numbers you will need to call to obtain the Hospital Medical Record Number and the Encounter Number for your reports.

This applies if you transport to Inova Fairfax *or* you transfer care to a helicopter who transports to Inova Fairfax. You will now need to contact the Inova Registration Center at (703) 776-3949 or (703) 776-3114. The Registration Specialist should be able to provide you with this information.

As stated in IB 22.001, please do not enter the Hospital Medical Record Number and the Encounter Number until your report is complete. The system will run the validity rules when you sync the chart or when you save the chart after it is on the server. If the validity rules are met (see below for the rules), then the chart will export into Inova's EPIC medical record system. This transfer will only occur once, so it is imperative that your chart is complete prior to entering the Hospital MRN and Encounter number.

Required Data for ImageTrend to Export

1. Patient's First and Last Name
2. Patient's Gender
3. Patient's Date of Birth
4. *Hospital MRN #*
5. *Encounter Number*
6. Destination Name must be one of the following : Inova Fairfax Hospital • Non-Hospital
(Used when patient care is transferred outside of the ER – such as medevac transport)

Questions regarding this informational bulletin should be directed to Battalion Chief Rich Cluff.
